Michael Clanton
Mothership Communications
PO Box 12
Littleton, NC 27850

On behalf of the Town of Littleton we support Mothership Communication's proposal to the USDA for a grant to fund the Rural Broadband project to close the digital divide and assist community growth in the Greater Littleton Area. We strongly support this grant application and the focus on closing the digital divide among residents and providing connectivity to our visitors.

The Mothership Communications team reached out to the Town of Littleton with prior knowledge of the area and our connectivity problems. They have been very responsive and met with representatives of various organizations to get a true view of the Town's social and economic position. Both the Town of Littleton and Mothership Communications share a goal for equity of access to information and area wide business growth that will result.

On behalf of the Town of Littleton, we acknowledge specific roles and responsibilities that we will fulfill in this partnership. In the event this proposal is funded we would expect our role in the Rural Broadband Project would include:

- Working in a genuine partnership to close the digital divide in our community. One of our commissioners would be designated to lead this effort.
- Creating a forum for residents and area organizations to communicate their collective need
- Discuss access to Town owned buildings and land as possible locations for equipment

We believe that Mothership Communications has the right technical solutions for our needs and we look forward to working with them on the next phase of the Rural Broadband project to help close the digital divide and support community growth in Littleton.

Stephen Barcelo, Commissioner

K. Owen Scott, Mayor

**Town Clerk/Finance
Officer position.**

Responsibilities include, but not limited to, supervising disbursement and accounting of revenues and expenditures for the Town.
